Student — Learning DS&A in C++ — Cloud, DevOps & Web Development Enthusiast

EDUCATION

- **Dharmsinh Desai University** Nadiad, India
Bachelor of Technology - Computer Engineering '29 *August 2025 - Ongoing*

EXPERIENCE

- **GirlScript Summer of Code (GSSoC'26)** *Apr 2026 – Ongoing*
Contributor
 - Contributing to open-source projects under GSSoC'26 across domains including AI and web development.
 - Collaborating with mentors and contributors while following Git/GitHub workflows and best practices.
 - Actively working on resolving issues, implementing features, and improving documentation.
- **LFX Mentorship - Magma Core (2026)** *Jan 2026 – May 2026*
Mentee
 - Contributed to the Magma open-source project under the Linux Foundation LFX Mentorship program.
 - Worked on real-world telecom and cloud-native infrastructure tasks while collaborating with mentors and contributors.
 - Gained hands-on experience with large-scale codebases, debugging, documentation, and open-source development workflows.

SKILLS

- **Languages:** C/C++(Strong), Python(Good), JavaScript(Decent)
- **Web:** HTML5, CSS3, JavaScript, PHP, REST APIs
- **Database:** MySQL(Strong), MongoDB(Good), PostgreSQL(Good)
- **Tools:** Git, GitHub, Linux, VS Code, Postman
- **Core CS:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks
- **Cloud & DevOps:** Google Cloud Platform (Basics), GitHub Actions (Basics)

PROJECTS

-  **AI Scholarship Finder**
DUHACKS 5.0 Hackathon Project
 - Developed an AI-powered platform to intelligently match students with relevant scholarship opportunities based on user inputs and criteria.
 - Implemented structured filtering and recommendation logic to simplify the scholarship discovery process.
 - Focused on improving accessibility and efficiency in finding scholarships through a user-friendly interface and optimized data handling.
-  **AI Go-To-Market Planner**
Google For Startups - Prompt to Prototype Capstone Project
 - Built and deployed a Gemini-powered AI GTM Planner using structured system prompts to deliver contextual, execution-focused startup strategies.
 - Integrated GenAI APIs with secure key management and cloud deployment to create a public, production-ready prototype.
 - Applied advanced prompt engineering to convert AI models into decision assistants rather than generic content generators.

ACHIEVEMENTS & CERTIFICATIONS

- Completed the Oracle Database@AWS Certified Architect Professional
- Completed the Oracle AI Autonomous Database 2025 Certified Professional
- Completed the Accenture Developer and Technology Job Simulation
